Kindergartners are working on 2nd Quarter individual and group assessments.

We have also been comparing different Gingerbread stories along with enjoying holiday songs, art, stories and writing activities.

Math - Topic 6

In math, we continue to focus on the understanding of addition. Students will represent addition using their fingers, objects, drawings, number sentence equation and verbal explanations. They understand addition as "putting together" two groups (joining) or as "adding to" a given group.

Our next unit in science is "The Five Senses". We will work on this topic for the next few months.

THE GENOA KINGSTON FFA CHAPTER IS HOSTING A FOOD DRIVE FROM DEC. 4TH -8TH.
