

ILLINOIS PHYSICAL AND IMMUNIZATION REQUIREMENTS

Students entering **preschool, kindergarten, sixth, and ninth grades, and new students to the district**, must present proof of the required state of Illinois physical examination and immunizations. Must have immunizations and physicals (including sports) the first day of school or provide an appointment card showing these requirements will be completed within thirty days. Out-of-state physical examinations written on approved forms, which meet current state of Illinois requirements, are acceptable if they are less than one year old.

All students entering kindergarten, second, and sixth grades are required to present proof of an **oral health examination** completed by a licensed dentist. This will be due prior to May 15th of that academic year.

A **vision examination** is required of all students entering kindergarten or enrolling in an Illinois public school for the first time. Written proof of having been examined by a physician licensed to practice medicine in all of its branches or a licensed optometrist will be required.
